DOCRIL

100% Acrylic Fabric

®

Colours

Australian tradition and European style come together to create an innovative blind and awning fabric collection of elegance and beauty.

The Docril Collection brings a fiesta of colour with over 60 options which have been selected to complement any domestic, commercial or architectural project whilst providing you, your family and your furniture with attractive and practical protection from the sun's damaging rays.

067 Grey*

097 Charcoal

114 Pepper

039 Black*

Docril Sun Protection

Using a sun protection fabric on the outside of the window is the most effective way to stop solar energy from passing through a window into a room. Docril blind and awning fabrics will reduce interior solar heat gain by up to 90%, naturally creating a cool and comfortable environment. Lighter colours will reflect the sun's rays while letting light filter into the room. Darker colours will reduce glare and provide optimum protection from the sun's harmful rays. With a fiesta of colour, Docril is a superb choice for your window furnishing project.

*Also available in Docril Nautica waterproof acrylic

FIVEyear
WARRANTY

Docril fabrics are supported by a 5 year warranty. This covers changes in physical properties and is valid for 5 years from the date of purchase. Further details about this warranty are available by request from Ricky Richards (Sales) P/L.

Docril fabrics by Citel are Oeko-TexR Standard 100 certified and have been tested for harmful substances or chemicals which are prohibited or regulated by law. The Oeko-TexR Standard 100 is a globally uniform testing and certification system.

Docril fabrics are coated with Dupont Teflon and have exceptional resistance to water, high temperatures, chemical reaction, corrosion and stress-cracking.

Docril fabrics are as durable as they are stylish and are designed to handle high traffic applications with ease. In outdoor situations these fabrics should be hosed regularly to remove dust, bird droppings and other solid particles. Water based stains should be treated first by rinsing with cold water. If this is not sufficient, Docril may be washed with a mild solution of soap in lukewarm water and rinsed thoroughly. It is important that your Docril awning or blind is let down to dry after wet weather and should not be rolled up when wet. Outdoor furniture and cushions should also be dried before storing away. To maintain the life of your fabric, the care instructions should be adhered to.
